

The Glenwood Oak Furnace

equally good for Coal or Wood

The Glenwood Oak Furnace with special wood grate, is perfectly planned for burning wood, and is also provided with a coal grate, so that either fuel may be used always at the best advantage.

The Wood Grate is adjusted and removed through feed doors, and as it rests at the lower edge of fire-pot it is not necessary to remove coal grate when using the wood grate.

This feature is extremely convenient, as the user may change from a coal furnace to a wood furnace by the minute operation of adjusting the wood grate. The Double Feed Doors admit very large pieces of wood.

The Glenwood Regulating Damper controls the fire with little attention. Call and see this wonderful Glenwood.

REYNOLDS & SON, BARRE, VERMONT

REAL ESTATE SALE FOR PAVING ASSESSMENT.

Whereas, the Street Commissioners of the City of Barre, in the County of Washington and State of Vermont, in pursuance to the resolution of its City Council, duly passed, did on the 21st day of November, A. D. 1903, assess upon the lands of Mrs. Ella Reed, Mrs. Caroline King, Mrs. Alice Jones and Albert C. Reed's estate, for grading, paving, macadamizing, curbing and guttering a certain portion of North Main Street, in said City of Barre, upon the following described lands of said Mrs. Ella Reed, Mrs. Caroline King, Mrs. Alice Jones and Albert C. Reed's estate abutting on said street, to-wit: Bounded on the north by land owned by W. A. Boyce, on the west by Jail Branch, on the south by land owned by W. H. Gladding, and on the east by North Main Street.

The sum of \$4,038.4 dollars per front foot of said land abutting on said North Main Street, amounting in all to the sum of One Hundred Sixty-six 91-100 Dollars.

Now, this is to warn the said Mrs. Ella Reed, Mrs. Caroline King, Mrs. Alice Jones and Albert C. WILL BE SNUBBED.

Not Wisdom for Roosevelt to Offer Any Intervention.

St. Petersburg, Oct. 18.—An announcement from Washington saying that the time for mediation in the far Eastern war was approaching has created an unfavorable impression in government circles here, where there is an inclination to associate it with the interview of the Associated Press with a diplomat at Tokio suggesting the propriety of restoring the efforts in behalf of the restoration of peace.

The idea of peace, it is asserted here, could hardly come more inopportune, with the Japanese in the full flush of victory.

It has aroused only resentment, and there is no doubt that if President Roosevelt should actually attempt to open the question at this time he would meet with a rebuff.

OLDEST MANAGER

In Theatrical Business Dead In London.

London, Oct. 18.—Charles Morton, the oldest and most popular theatrical manager in Great Britain, died this morning. In spite of his 90 years he managed the Palace Theatre and the Varieties until a fortnight ago. The anniversary of his birth always brought wonderful tributes from the stage and the public.

LAST APPEAL TO PARKER

To Take Stump in His Own Behalf.

FINAL EFFORT FRUITLESS

Campaign Managers Made Final Appeal to Him Yesterday to Get Him to Speak.

New York, Oct. 18.—Judge Alton B. Parker arrived in this city today to resume his conferences with the campaign managers, who will make a last desperate attempt this week to get their candidate on the stump. The judge's preference for "home talks" at Esopus is recognized, but his managers think a five-minute speech before a multitude in New York or Chicago would make more votes than a half dozen long speeches read to a few hundred persons from the piazza at Rosemount.

This point of view will be strongly impressed upon the judge this week, it is said, and he will be urged to make a few public appearances during the last two weeks. He will be told that such a course is necessary if he would save the day. It may be suggested to the judge that a broadside on the postal scandals, attacks on tariff and trusts as well as extravagance in government will touch a responsive chord.

ITALIAN ELECTIONS ON NOVEMBER 6

Supplementary Balloting Occurs on Nov. 13—Ministry Appeals in Elections for Supremacy of State.

Rome, Oct. 18.—A royal decree was published today fixing the general elections for Nov. 6 and the supplementary balloting for Nov. 13.

The opposition parties accuse Premier Giolitti of weakness toward the extreme parties, which they add, caused the organization of the subversive movement, especially at Milan and Genoa. The Anarchists urge abstention from the elections, and recommend instead a propaganda in favor of the political prisoners. All the garrisons have been reinforced, and a squadron of warships is at Genoa. The labor exchanges will hold a National Congress Wednesday at Milan. The extremists are taking steps to increase the revolutionary propaganda in the army.

At a meeting of the council of ministers yesterday Premier Giolitti informed his colleagues of the political situation in Italy and drew up the basis of a report to be presented to King Victor Emmanuel, proposing the dissolution of the Chamber of Deputies and the holding of a general election.

All political parties of the kingdom are now engaged in preparing for the general election. Thus far perfect tranquility has been maintained. The cabinet, in deciding upon the dissolution of the Chamber of Deputies at this time, is represented to be working upon the broad plan of calling upon all the constitutional elements in national politics, whether hitherto friendly or opposed to the ministry, to rally in defence of order and liberty, and to strengthen the authority and prestige of the state. The time is considered to be opportune, as the excesses provoked by the extremist parties during the recent so-called general strike have produced a reaction against the tyranny of mob rule. The violence displayed recently is regarded as being the cause of the split in the extreme Left, the Radicals having separated from the Socialists, the former being unwilling to longer be responsible in any degree for the excesses of the latter. The Socialists, however, are divided into two fiercely antagonistic factions. Premier Giolitti, according to his adherents, will not depart from the policy that has been the aim of his entire political career, namely, complete liberty within the limits of the law.

Since the strike ended the country has settled down to complete calm. The calling out of the reserves, it is explained, merely indicates that the Government wishes to have sufficient force at hand to preserve public order.

"NORTH AGAINST NEGRO."

W. E. Du Bois Makes a Stinging Arraignment.

Des Moines, Ia., Oct. 18.—A vote of the Congregational Council will be taken at the close of the sessions today on the question of federation with the Methodist Protestants and the United Brethren. The main meetings today were those of the American Missionary Association, before which the speakers from the South discussed the problems of that section.

One of the most noteworthy of these addresses was that delivered by Professor W. E. Du Bois of Atlanta, who sharply attacked the North for what he declared was a clear disposition on the part of a large section of the North to check the progress of the Negro. Giving his subject as "Caste in America."

SEVENTH VICTIM OF FIRE.

Third of Family to Die as Result of Burns in Tenement House.

New York, Oct. 18.—Henry Glass, six years old, the seventh victim of the tenement house fire in the Williamsburg section of Brooklyn, died today. He is the third one of a family to die as a result of yesterday's fire. Eleven others are dangerously injured, and some of them may not recover.

WINCHESTER

FACTORY LOADED SMOKELESS POWDER SHOTGUN SHELLS

Good shells in your gun mean a good bag in the field or a good score at the trap. Winchester "Leader" and "Repeater" Smokeless Powder Shells are good shells. Always sure-fire, always giving an even spread of shot and good penetration, their great superiority is testified to by sportsmen who use Winchester Factory Loaded Shells in preference to any other make.

ALL DEALERS KEEP THEM

THE VALUE OF TRAINING.

What Has Become of Two Classes From a Technological School.

Two classes of the Massachusetts Institute of Technology, one of which graduated five and the other ten years ago, have recently published two little volumes in which their members tell what has happened to them since they graduated. These volumes show the relation between a modern technological education and success in the actual broad and better struggle of daily living in an interesting way.

None of the graduates may be said to have failed to make a good living, a large majority, of course, having followed one or another of the engineering professions for which the institute trains its students. In actual earning capacity the greater number now make from \$1,500 to \$2,000 a year, while a small percentage in the comparatively short time since they took their diplomas have reached a yearly earning capacity of between \$20,000 and \$30,000. The average "life" is a story of advance more or less rapid from one position in the manufacturing world to another, but during the past decade hardly an important public work has gone forward without the help of one or more young men from technology.

Perhaps the most adventurous career the little book describes is that of a young Englishman educated, like many other foreigners nowadays, at this American technological school. "After graduating," he says, "I entered the electric light branch of Her Majesty's postoffice, where I soon rose to be senior officer and had charge of a shift. Then in 1896 I became superintendent foreman at Malta. Eighteen ninety-seven found me with the Teletograph company, and in 1898 I was construction engineer in the Manchester office of the Expanded Metal company, and 1900 I spent in South Africa fighting for my country with the City Imperial volunteers."

"On returning to England I was called to the bar and at once joined the northern circuit. But I have returned to my old love, and I am now junior, but acting and managing partner of a firm which was founded in 1766 and has ever since been the tip-top house in London for everything connected with light."

Another graduate invented the "radium ballet," which made such a theatrical hit last winter, and yet another supervised the construction of the Herreshoff cup defender Columbia.

Cleaning Asbestos.

When the asbestos in stoves and fireplaces becomes blackened it may be cleaned by sprinkling it with salt and allowing the gas to burn for awhile.

Foretold the Future.

Mme. Louise, an Isle of Wight palmist, told a policeman who was consulting her in disguise that he would shortly take part in legal proceedings in which he would be successful. She was right. She paid a fine on his evidence.
